Experience and Explore at YNS Summer Science Camps!

Become a Young Nebraska Scientist!

Nebraska EPSCoR sponsors 3 to 5 day residential and commuter camps at colleges and universities in Nebraska for middle school and high school students. YNS camps introduce campers to today's hottest topics in science and engineering. Campers get hands-on experience in and outside of the lab. For detailed program information and application materials, visit yns.nebraska.edu.

Middle School Camps, 2019

- June 05-08 CyberCamp — University of Nebraska at Kearney
- June 10-14 Soil and Plants in Agriculture — University of Nebraska at Kearney
- July 15-17 The Secret Life of Metals — Creighton University, Omaha, NE

High School Camps, 2019

- June 05-08 CyberCamp — University of Nebraska at Kearney
- June 10-12 Life Underground: The Unseen Power of Microbes — University of Nebraska—Lincoln
- June 17-19 Explorations of Biology — Nebraska Wesleyan University, Lincoln
- June 23-29 Biodiversity: Field Science — Cedar Point Biological Station, Ogallala, NE
- July 01-03 Renewable Energy Technologies — University of Nebraska—Lincoln

Participants get to:

- Stay in dorms and experience a taste of college life
- Make friends from across the state
- Work in university science labs
- Work with university researchers and community science experts
- Go outside and experience science in a natural setting
- Compete in design contests
- Relax during movie night, outdoor adventures, rec time, and more
